It is a matter of great pride for Uttarakhand that S.C. Guria Institute of Management & Law College has been making significant contribution in providing quality education to the students of Kashipur and nearby areas of Kumaun region especially to the students of rural areas. Recently, as a Chief Guest of SC Guria IMT Foundation Stone Laying Ceremony of Bio-fuel Mobile Unit of Bio-fuel Plant on December 20, 2022, I got an opportunity to visit this institute which was established in 2005 by my political senior colleague Late Sri S.C. Guria under the guidance of great visionary Honorable Sri N.D. Tiwari Ji (Ex. CM. UP and Uttarakhand) who really wanted to develop Kashipur as an education hub not only in Uttarakhand but also at National Level. During my visit to this great institute, I interacted with the Chairman Smt. Vimla Guria (W/o late Sri S.C. Guria), her management team as well as the faculty and all administrative staff including directors of different disciplines.

I am elated to note that the institute is going to introduce LL.M & M.Com. in the coming session 2025-2026, besides already running MBA, BBA, BCA, B.Com (Hon.), LL.B and BBA LL.B. to suit the current needs of students.

I wish all the best to the management, faculty and staff members in their future endeavours to fulfil the dreams of founder chairman late S.C. Guria Ji of this institute. Further, I wish all new students a great success and request them to take maximum advantage by getting quality education at very nominal expense in this institute.

I firmly believe that professional education is the need of time. A few years ago, it was available only in big cities. I am glad that SC Guria Institute of Management & Technology has been pioneer to import quality professional education in a small city like Kashipur and has been running MBA, BBA, BCA, B.Com (Hon.) to benefit the students of Kashipur, Bazpur, Jaspur, Ramnagar and other nearby areas.

Professional education gives opportunity to students to grow by developing skills, which make them employable. At the same time, professional education is an effective medium for social transformation. Recently, I visited the institute. I was excited to see the state-of-art infrastructure and other facilities, which offer a conducive environment for effective learning.

I wish a great success to the management, faculty member and students for their future pursuit.

"Knowledge is certainly a man's greatest beauty - it is safe and hidden treasure. It provides prosperity, fame and happiness. Knowledge is the guru of all gurus. It act's as one's friend in a foreign country. Knowledge is the supreme God.

It is knowledge, not wealth, which is adored by kings without knowledge one is no better off than an animal".

The era of knowledge economy has brought with itself a great challenge for educational institutions. We, at SC Guria IMT, ensure that our students realize their potential to the fullest to be successful part of global economy.

We strive to integrate essential human values with knowledge and skills to develop tomorrow's business leaders.

Our philosophy is very simple that every student should become a success story.

"It is our promise and it is our commitment".

## *About Us*

We take the pleasure to introduce ourselves as an upcoming institute in the field of management, computer & law education and are managed by a society which has an experience of number of years in imparting the education.

This institute which believes in imparting the value-based education has been an outcome of the vision of Shri N.D. Tiwari (Ex-C.M. Uttarakhand) & Shri S.C. Guria (Ex-MP, Lok Sabha).

The institute has a sprawling 15 acres campus in a quite & natural environment, highly conducive from the learning point of view.

Established in the year 2005, the institute has taken a long stride & has proven itself in the field of education. The rigorous curriculum of the institute prepares its students for a challenging career. The institute believes in the intellectual, professional, emotional & spiritual development of the students & leads them towards their holistic development.

## *Our Philosophy*

The problem with the nation is not about the dearth of resources but it is about managing the resources. Moreover in today's highly competitive world which is becoming more competitive day by day, effectiveness & efficiency have to be instilled in every aspect of work. The institute is making its humble contribution in addressing these problems through management & IT programs. Moreover the institute does not adopt the narrow outlook of preparing the students only for the job, rather it prepares them to be a "better manager of resources" & see that they contribute not to their own growth only but also in making country a developed nation.
